

Lesson 02 Demo 02

Create Agile Test Plan

Objective: To create Agile Test Plan

Tools required: Jira board

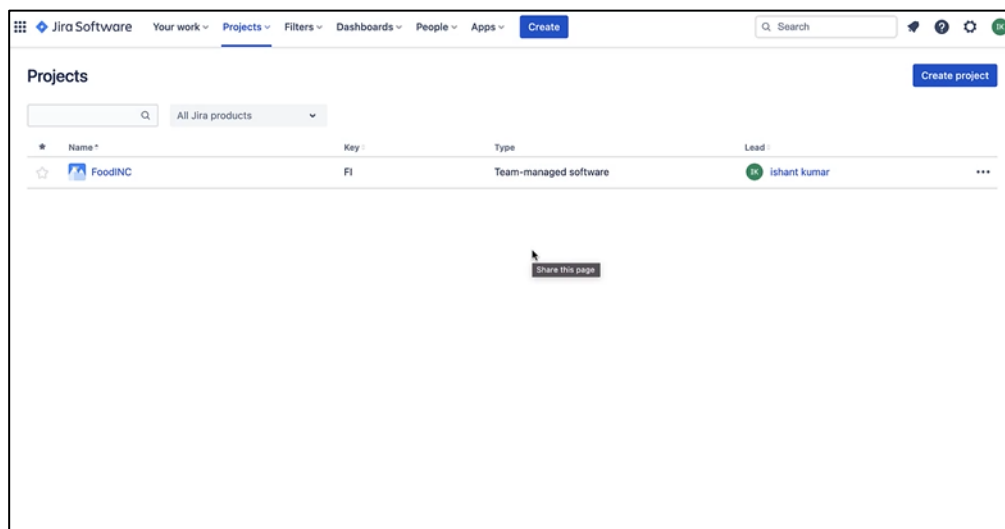

Prerequisites: Existing Jira account

Steps to be followed:

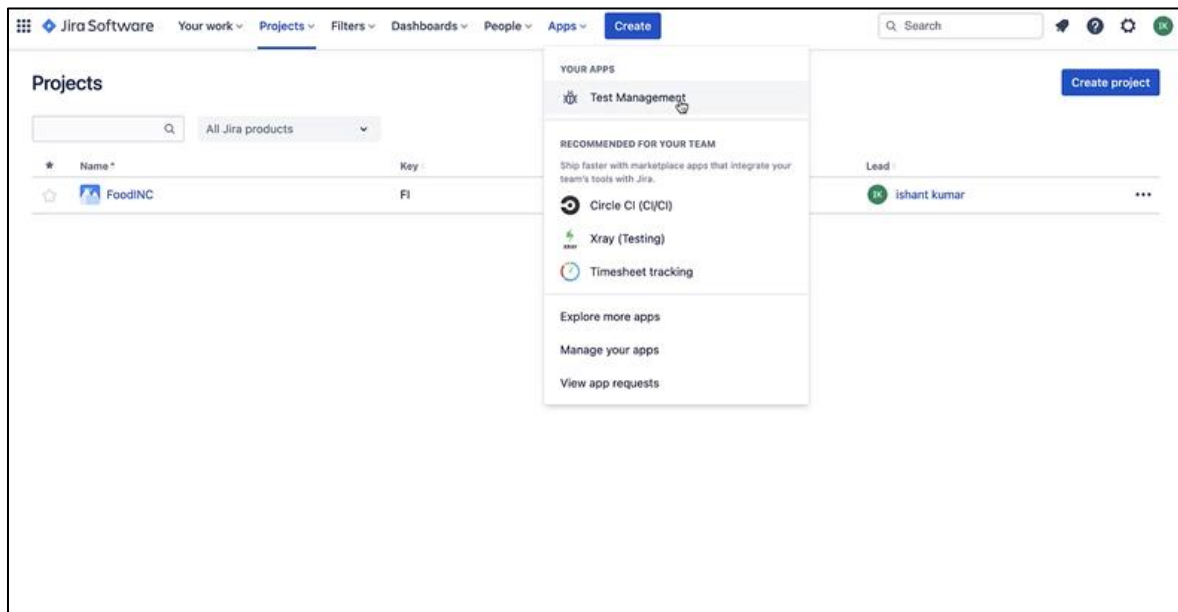

1. Create Project in Jira
2. Select the compatible project

Step 1: Create Project in Jira

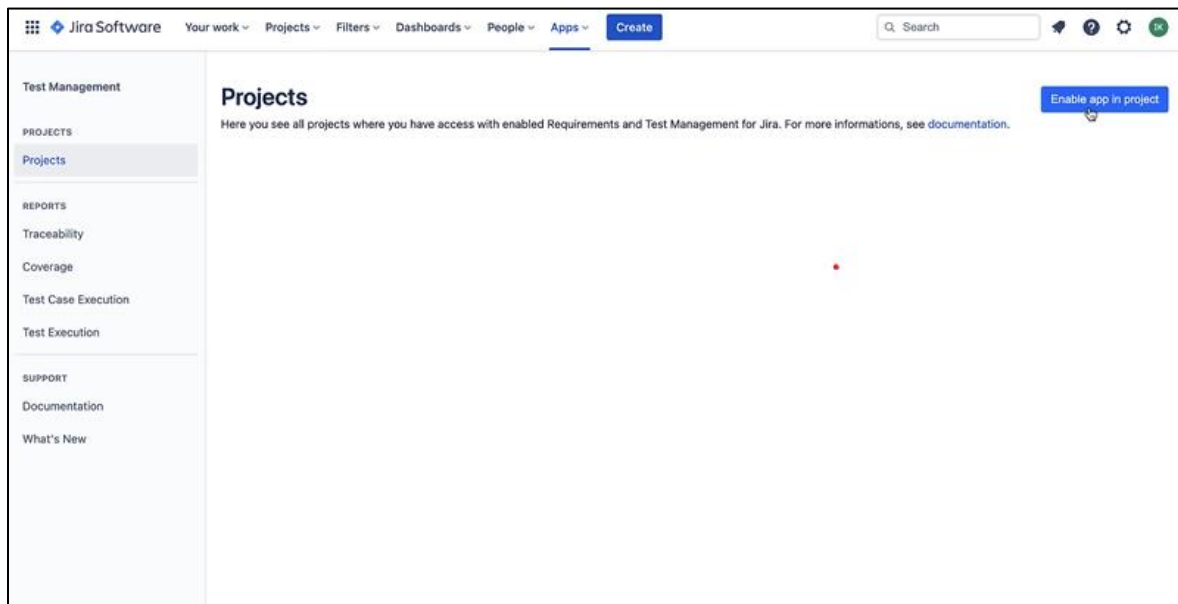

1.1 Select Apps from the top panel

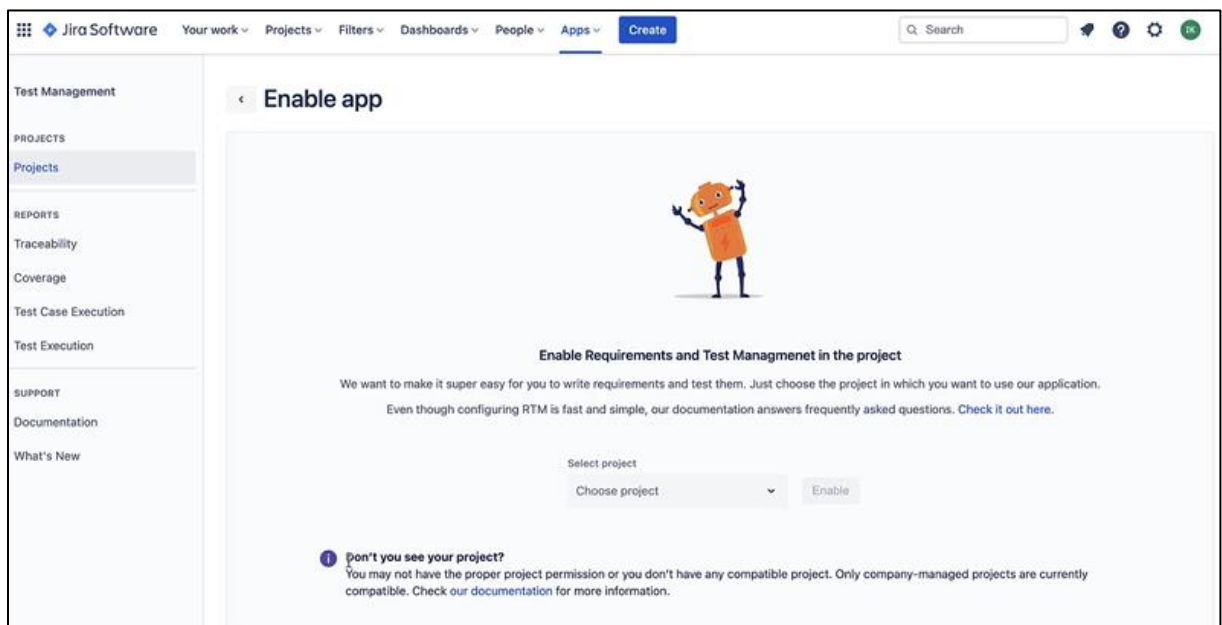

1.2 Select Test Management from Apps.

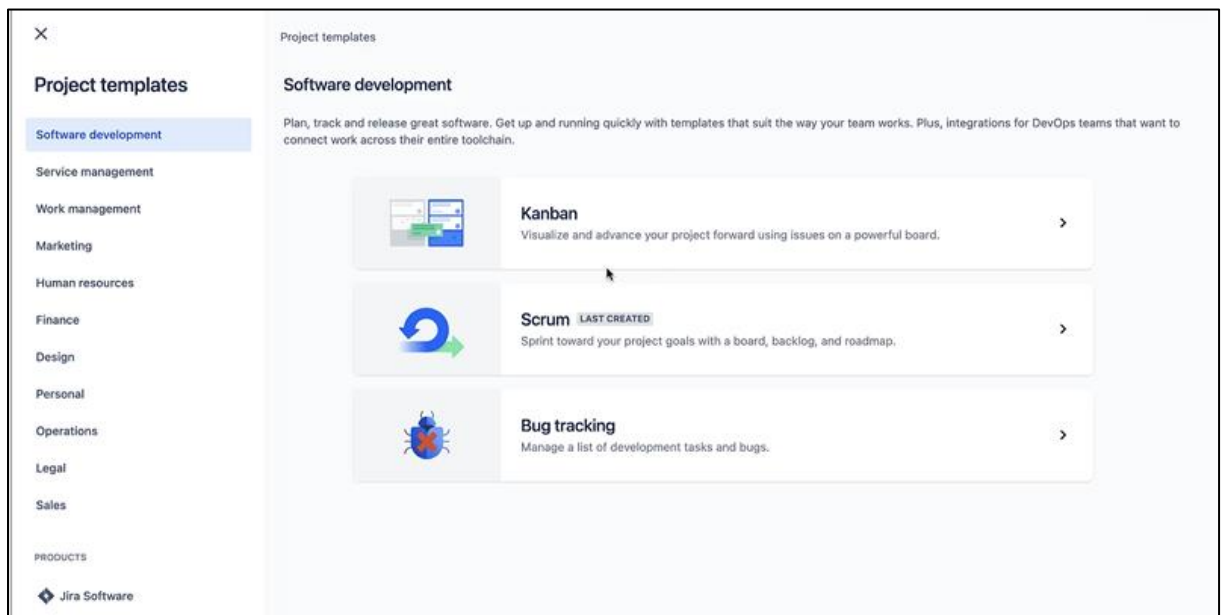

1.3 Open the Projects page and check the components.

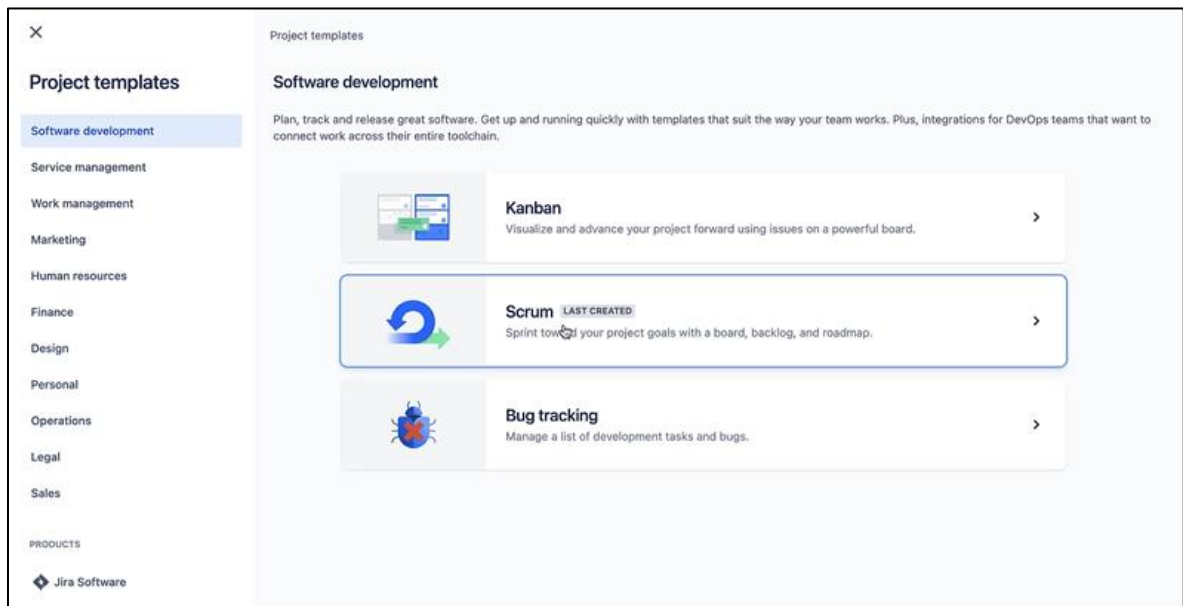

1.4 Click on Enable app in project and we get redirected to this page.

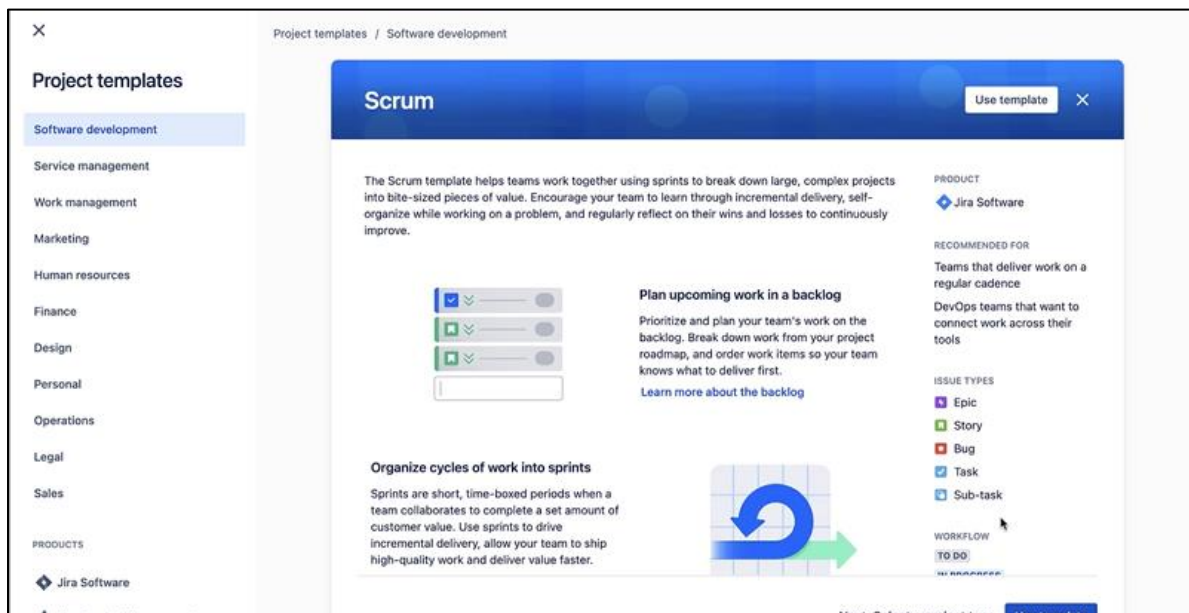

1.5 Check the list of templates and create a new project based on that.

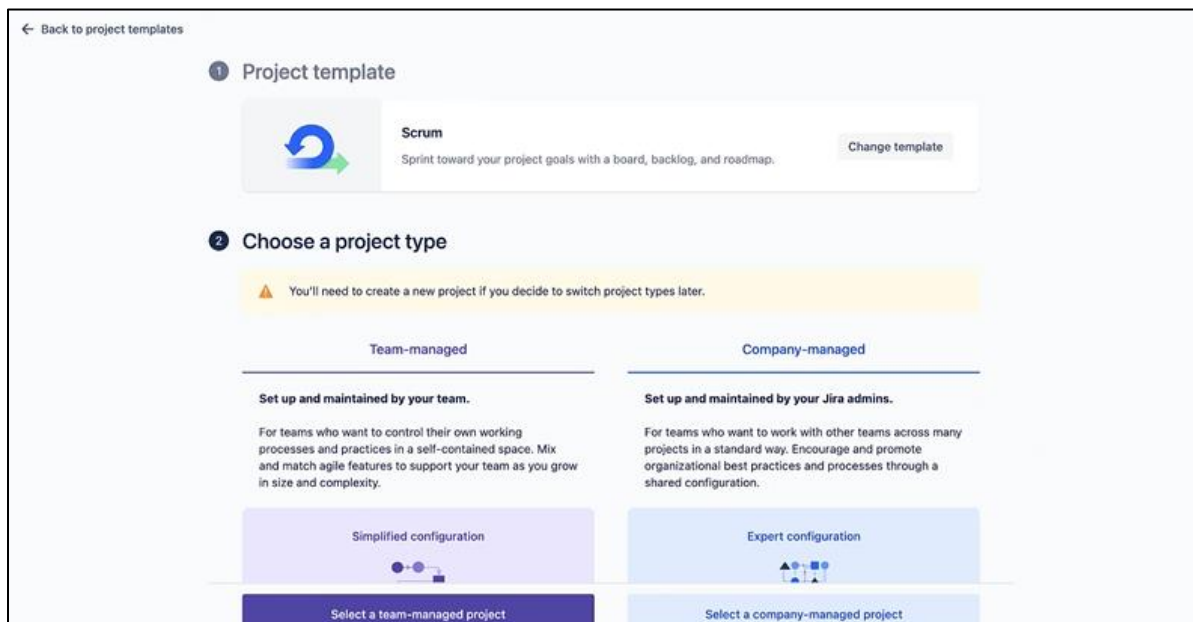

1.6 Out of all the templates, select **Scrum**.

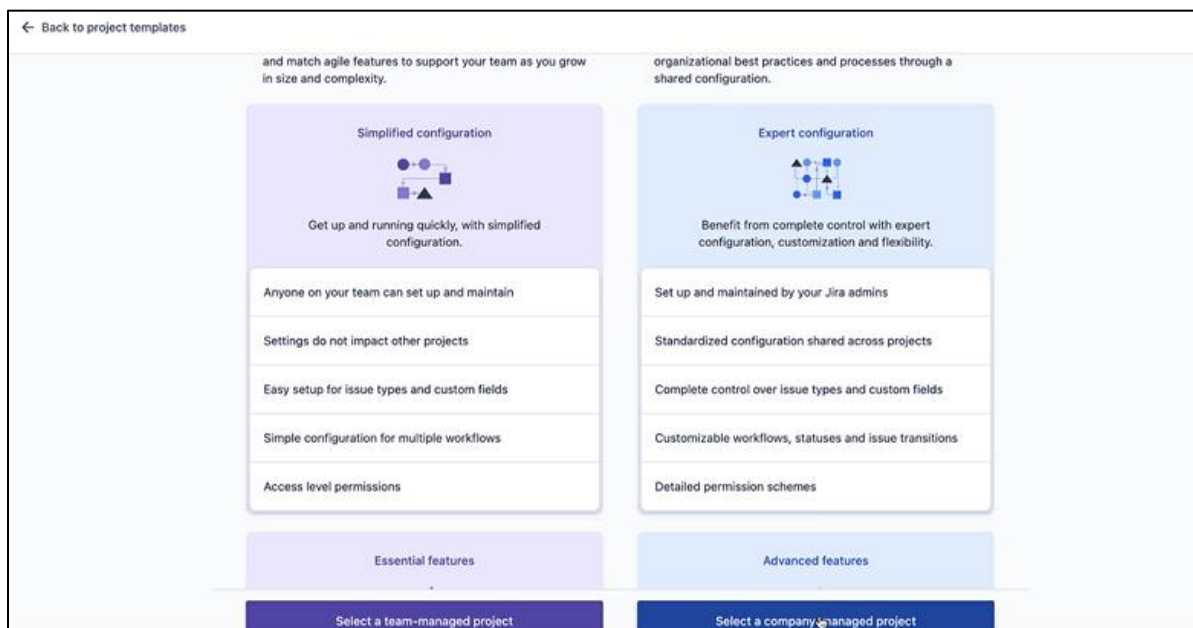

1.7 Select **Scrum**. This page appears.

1.8 Click on **Use template** and get redirected to the next landing page.

1.9 Scroll down and choose **Select a company managed project**.

1.10 On the next page, fill up all the details and click on **Create project**

← Back to project types

Add project details

You can change these details anytime in your project settings.

Name
ParkingManagementApp

Key ⓘ
PAR

☐ Share settings with an existing project

☐ **Connect repositories, documents, and more**
Sync your team's work from other tools with this project for better visibility, access, and automation.

Template
Change template
Scrum
Sprint toward your project goals with a board, backlog, and roadmap.

Type
Change type
Company-managed
Work with other teams across many projects in a standard way.

Cancel Create project

1.11 Check the **Active sprints** section from the project dashboard.

You're in a company-managed project

Step 2: Selecting the compatible project

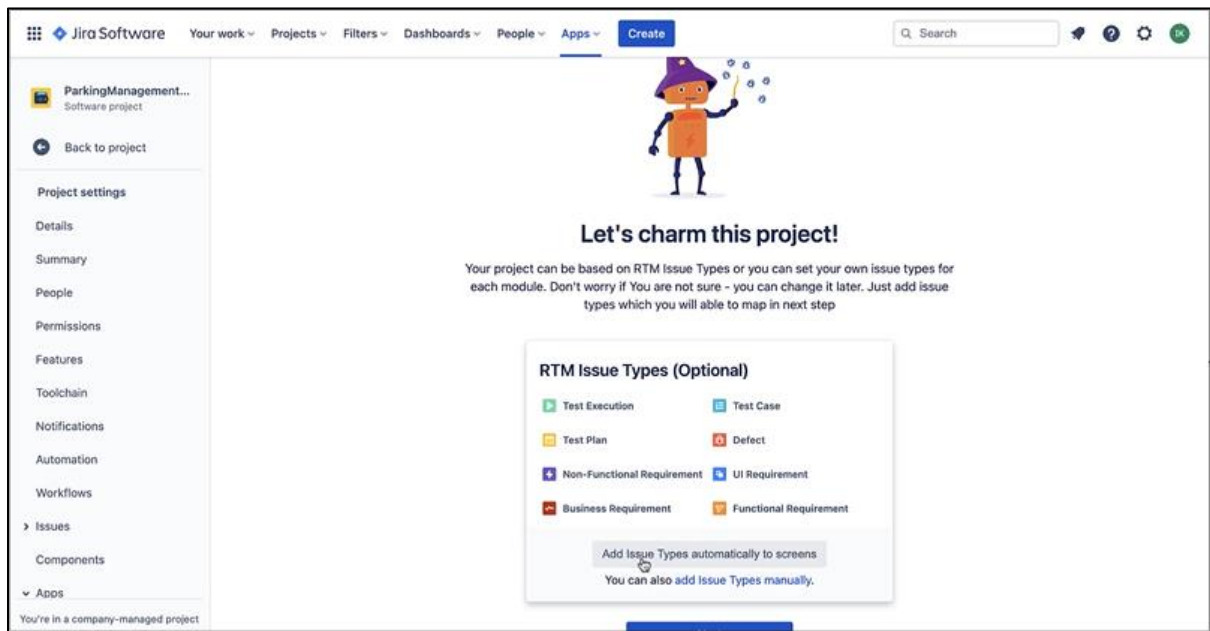

2.1 Select the project present and choose **Enable**.

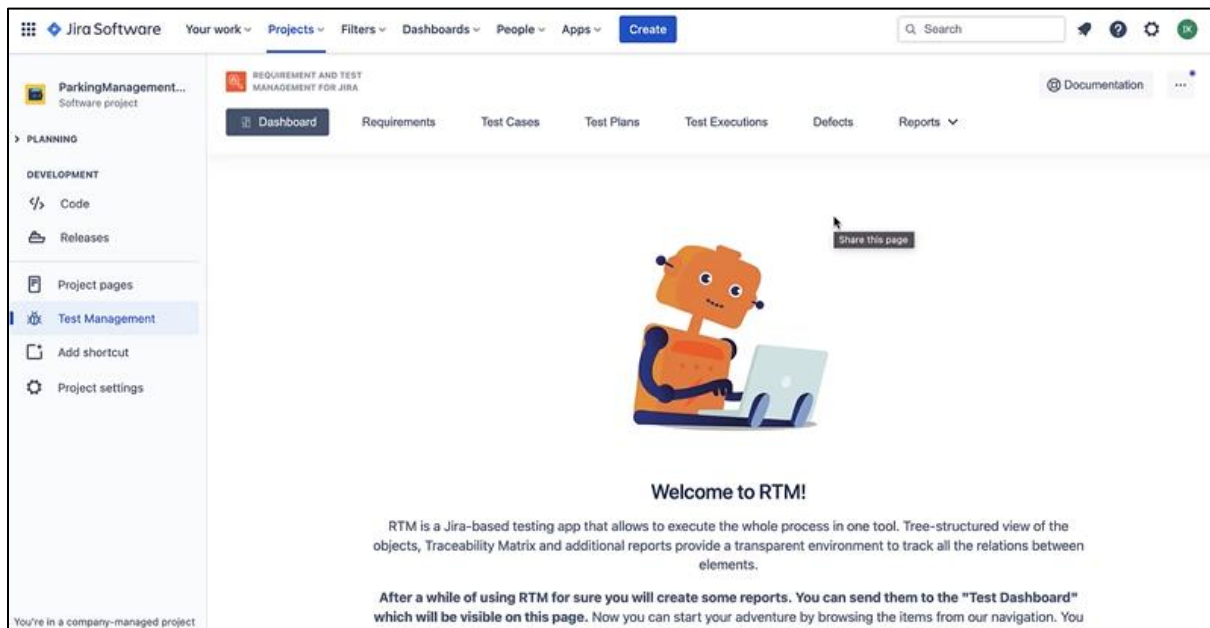

2.2 On clicking **Enable** we are redirected to the next application page.

2.3 Select **Add Issue types**.

2.4 By clicking **Next**, we are redirected to this page.

2.5 Create a **Test Case** by filling in all the details. Then click on **Create**.

The screenshot shows the 'Create issue' modal in Jira Software. The project selected is 'ParkingManagementApp (PAR)'. The issue type is 'Test Case'. The summary field is empty. The components are set to 'None'. The attachment field shows a 'Drop files to attach or browse' prompt. The description field has a rich text editor with 'Normal text' selected. At the bottom, there is a 'Create another issue' checkbox, a 'Cancel' button, and a 'Create' button.
